BACKEND, FRONTEND, FULL-STACK DEVELOPER

WORK, EXPERIENCE

Sonore Kft.

Developer

2023 -

Node Js, Typescript, GitLab, MySql, CI/CD, K8S, Kafka, IBM MQ

Smart Time Zrt.

Developer

Budapest, 2020 - 2022

Node Js, React Js, PHP, Git, MySql, Firebase, Bootstrap

Blockchainsolutions Zrt.

Developer

Budapest, 2019 -2020

Node Js, React Js, PHP, Git, MySql, Firebase, Bootstrap

At Sonore Kft., I am currently developing an application for a telecommunications company, for internal use.

At Blockchainsolutions and Smart-Time Zrt, I developed a Firebase-based OAUTH access control system in Node Js, with which the user could enter the other modules -part of which I also developed. This was the basis of the entire system.

EDUCATION

UNIVERSITY OF DUNAÚJVÁROS

Engineering Information Technology (BSc)

Dunaújváros, in progress

UNIVERSITY OF DUNAÚJVÁROS

Technical teacher

Dunaújváros, 2005

UNIVERSITY OF DUNAÚJVÁROS

ABOUT MYSELF

My job is my hobby!

I am a solution-driven programmer with more than 10-year work experience, knowing modular and object-oriented programming. I am well informed at all stages of the software development cycle.

I offer proven successful personalized solutions.

PERSONAL DATA

Nationality: Hungarian

HOBBIES

Programming, Martial arts, Motor cycling, Cycling, Running

FUTURE PLANS

I like new challenges. I would like to learn a new programming language and have a more stable knowledge of existing ones.
